NOTE

In this international seminar on Language Maintenance and Shift 7 (LAMAS 7 for short), we try to do the new paradigm, that is publishing the proceeding after the seminar was held. The positive aspect of the paradigm is that the presenters of the seminar have opportunity to revise their paper based on the responses of the audience. However, it takes longer time to process the proceeding until it is ready to distribute. Therefore, we apologize for being late.

In this opportunity, we would like to extent our deepest gratitude to *Balai Bahasa Jawa Tengah* for continuously cooperation in conducting the seminar. Thanks also go to the Dean of the Faculty of Humanities, the Head and the Secretary of the Master Program in Linguistics Diponegoro University, without whom the seminar would not have been possible. We would also express our special thanks to committee for putting together the seminar that gave rise to this compilation of papers.

We would like to thank Mrs. Shu-Chuan Chen, Ph.D. from Asia University Taiwan, Dr. Tupas Topsie Ruanni, from National Institute of Education Singapore, Drs, Pardi M.Hum. from *Balai Bahasa Jawa Tengah*; Prof. Ketut Artawa, Ph.D. from Udayana University, and Dr. Suharno, M.Ed. from Diponegoro University, as invited speakers in plenary sessions, and to all of the participants of the seminar.

Abstract

English slang words are not known well by all people, especially the English learners. It may be happened because of the English matter in their lectures not tell all about it clearly. This research aims to find out the cause of that phenomena through the theory of language acquisition this research will be driven. In the other hand, the data will be searched by the qualitative descriptive approach. The data will be taken from the adult sites in the internet. The result of this research shows that the English learners do not know the meaning of slang words itself. From 30 samples only some words that the learners knew about slang words, for example the word "Blow Job" is the least appear, only one learners who knew, which means 3% in percentage and the other do not know and for the word "Facial" the most appear, there were 29 learners who knew it, which means 97% in percentage. It shows that the learning in university still parcial and not holistic.

INTRODUCTION

As a learners we should know about many things that happen in our environment. It's because of the world always change day by day. If learners do not understand in their environment, it means they have left behind by the others. In English language not only related to formal language but also related to the slang words that learners should be taught by lecturer in order to the learners know about slang words that used by some people. English slang usually use in the outside of school, it means the learners will not be taught by the lecturers about slang language, because that language is not proper with formal language. So the lecturers are not teach the learners english slang. In this modern era, the English learners should know anything about english language, not only about polite language. Slang language also necessary for English learners, because they need to understand and know about slang language. In the acquisition of English Slang, university is not provide of the subject to learn about English Slang, because English Slang related to negatif things, but as a english learners, it should be learned.

Slang itself is usually used by the people in their environment to communicate each other. according to Wijaya Baby and Muhartoyo (2014) English slang usually used in informal situation. It means the English slang is use for someone who in their informal environment. Another definitions that expressed by Fan Yanhoung and Yanchun Zou (2013) about Slang, but they discussed about American slang. American slang is created by American itself. It means slang words itself in America developed by American itself from the history. Slang words itself usually use in informal context but english slang for adult in university is not taught by the lecturers. So, Environment is very important part to English slang acquisition, Skinner (2014) stated that we act upon the environment constantly, and many of the consequences of our actions are reinforcing. Through operant conditioning the environment builds the basic repertoire with which we keep our balance, walk, play games, handle instruments and tools, talk, write, sail a boat, drive a car, or fly a plane. Whereas, slang words for adult is important to know for learners in order to they know completely about variety of language. No only about formal language that use in university. Indeed basically, environment play important part to obtain second language. In this research, Skinner (2014) theory used to proven that environment is really important part to know a language. The object of this research are learners in second semester of IAIN Syekh Nurjati Cirebon.

DISCUSSION

The researchers conducted the research at IAIN Syekh Nurjati Cirebon in second semester. From all the samples that the researchers took, there were some learners who know about English slang for adult and there were who do not know at all about English slang for adult. It means the environment in the university was not good in vocabulary for andragogy learners. This is the problem for learners at second semester who really not understand in example for word *cream pie*. The percentage of 15 words would be analyzed and interpreted in the table below:

Number	The Words	Answers	
		Yes	No
1	Cream Pie	10%	90%
2	Blow Job	3,3%	96,7%
3	Sheriff Star	10%	90%
4	Red Head	16,7%	83,3%
5	Shaved Pussy	6,6%	93,4%
6	Hand Job	10%	90%
7	Facial	96,7%	3,3%
8	Hairy Pussy	6,6%	93,4%
9	Bomb Shell	6,6%	93,4%
10	Cumshot	6,7%	93,4%
11	Fingering	16,7%	83,3%
12	Stocking	90%	10%

From the data above only some words that the learners understood and recognized. for example the word “Stocking” almost perfect, It got “90%” say yes. The most of learners knew the word “Stocking” from other people and shop. It means that they only understood about real meaning of that word. But they do not understand the other meaning of “Stocking” itself. The word of Stocking can be said also English slang, because it has some meaning. It can be said also from one word of English slang they did not understand at all for English slang which is using by adult, and also they still have good environment.

The other English slang that the learners did not know is “Blow Job”. There were “96,7%” who said “No”. It means almost all the learners did not know about that word. But there was only one student who knew about that word. She or he knew the word from social media. It can be said she or he understood and recognized completely about the word of Blow job. The learners who said “No” means, they have good environment and the environment never talk about English slang for adult. Meanwhile who said “Yes”, She or He always pay attention of social media that she or he had.

From 12 words on the table above, most of learners did not know completely about the English slang for adult. Indeed it was good but to know about English slang for adult is really imporatant because the learners are not live in flat situation. It means to know English slang for adult only for new knowledge, because the lecturer never taught about English slang for adult. at least as a learners, they should be understood in order to they have more knowledge of English slang for adult not only common words that always said by lecturers or other learners.
